

SLABB

**DESCRIPTION:**

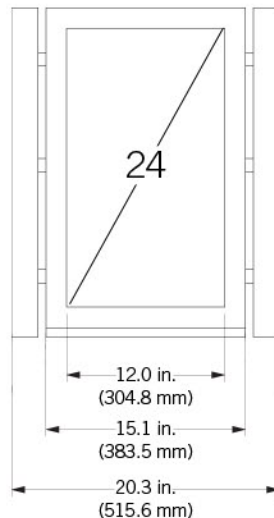

The Q-Series is a fully modular digital signage hardware platform. Our unique skin system allows for interchangeable fronts. The Q-series product has four different configurations:

Display Only: An LCD Monitor encased in a ruggedized steel enclosure with protective glass and no external buttons or cables (completely controlled by remote control).

Display and Touch: same as Display Only, but with a glass anti-vandal touch screen.

Display, Touch, and PC: same as Display and Touch, but with an internal PC (adds depth to form factor).

Display and PC: same as Display, Touch and PC, but without a touch screen.
